Bentley Park, 3 June 2019

To parents/carers of students enrolled in the Techexpress or eLearn classes

BYOD Four years ago we started our eLearn program and students were given permission to bring in their own laptop and connect it to the school network under our BYOD program (Bring Your Own Device).

Again this year we have made agreements with some of the major laptop producers, who have come up with very favourable prices and services in collaboration with the college. We would like to describe them briefly.

Acer

Acer has set up a BYOD portal in collaboration with Bentley Park College and Brilliant Technologies with the following web address: <http://byod.acer.com.au/school/bpc/index.php/>

When you select "BYOD store" on the website, you get access to a few of Ultrabooks and Notebooks that have been discounted for parents and students of our college.

All devices on the website come with onsite warranty, which means that if the laptop malfunctions the student can bring the laptop to the school technicians who will try to rectify the problem or call technicians from Brilliant Technologies who will come out and do the repair at the school.

We strongly recommend to purchase Accidental Damage Protection with the laptop or arrange it with you private home & content insurance (just beware of any excess).

Dell

Dell has also set up a BYOD portal in collaboration with Bentley Park College (Click on the following link): <https://myschoolshop-qld.datacom.com.au/bentleyparkcollege>

USERID: bentleyparkcollege

PIN: b{jS8rr9

(Please search for the model on <http://dell.com.au> and compare the prices).

The laptop model on the website comes with onsite warranty, which means that if the laptop malfunctions the student can bring the laptop to the school technicians who will try to rectify the problem or call local technicians who will come out and do the repair at the school.

If Accidental Damage Protection we strongly recommend that, else we recommend to arrange it with you private home & content insurance (just beware of the excess).

HP

For the first time, HP has partnered up with Bentley Park College to provide a BYOD online portal for our parents. They provide three different levels of laptops and provide an opportunity for Accidental Damage Protection.

The portal can be found on: <http://h20386.www2.hp.com/AustraliaStore/Merch/offer.aspx?p=Bentley>

Local vendor

If you choose to purchase a laptop from a local vendor please note that the following would be minimum requirements: Windows operating system, 64GB storage space, 2GB RAM (4GB recommended). Laptops like these can sometimes be seen on special for as cheap as \$350 - \$400. Just be aware that models like these usually are not intended to go in and out of a school bag every day.

We strongly recommend to purchase Accidental Damage Protection and extended warranty with the laptop or arrange it with your private home & content insurance (just beware of any excess).

No hire or loan option

Unfortunately, we are not able to offer a hire or loan option of laptops at the moment. Laptops can now be purchased at such a low cost that it is no longer a good deal for any parent to hire them through the school. The loan laptops we were able to offer in the past were laptops that originally were provided by the Federal government as a part of a "Laptop for Students" program. These are now too old and malfunctioning to be used as loan machines and we haven't been able to replace them.

Microsoft Office 365

Microsoft has generously offered all students to install Office 365 on up to 5 computers for each student, which means that the students do not need to purchase MS Office for their laptop. Please follow this link to find out how to get MS Office 365 for free:

<https://bentleyparkcollege.eq.edu.au/SupportAndResources/FormsAndDocuments/Documents/Student/office-365-student-advantage.pdf#search=office%20365>

Extra charger, bag, mouse etc.

For students who wish to purchase an extra charger, battery etc. please contact the IT department as we possibly can assist you in getting these at discounted prices.

If you have any questions regarding the above information, please feel free to contact Paw Kappel, Head of Department IT P-12, on phone: 4040 8145 or email: pkapp1@eq.edu.au

Yours sincerely

Paw Kappel
